

# Technozyme' Biofresh

TOILET / URINAL / KITCHEN SINKS / WASH BASINS CLEANER

## Optimal Solution on Everyday Problem:

SSMNT Group provides a unique bio enzymatic product TECHNOZYME BIOFRESH, which is very effective, economical & ecofriendly solution for everyday hygiene / odor issues.

**BIOFRESH Toilet & Urinal Cleaner** is a completely safe biological product which is highly effective in removing and preventing the build-up of dirt, grime and lime scale in toilet and urinal systems and their surrounding areas- including floors, tiles and grouting.

## Product Benefits:

- Prevents stains & odor
- Prevents dirt & lime scale buildup
- Removes organic scales
- Prevents chocking / clogging of pipelines
- Plumbing system maintenance cost reduction
- 100% biological & environmentfriendly

## How BIOFRESH works?

BIOFRESH contains blend of beneficial bacteria, bio enzymes & biosurfactants. These bacteria consume all waste in & around the toilets / urinals / sinks as source of food in turns removes stains & odor. Bio enzymes present in BIOFRESH breaks down long chain complex compounds in smaller compounds which are consumed by these bacteria. Biosurfactants removes all stains & lime scales.

## Directions for use:

Dilute 3 gm. of BIOFRESH is sufficient to clean 1 urinals/toilet/ sink. Mix 3gm of product in 300 ml of tapwater i.e. 100 times dilution. Spray this activated material around the toilet, cover urinal area, dose in sinks to cover all area. For getting best results keep this for 10 min. Mopping / use brush to remove stains. This product can be used on surrounding floors & walls. Flush system after completion.

**DO NOT USE DISINFECTANTS & CHEMICALS ALONG WITH THIS PRODUCTS.**

**Packing Options:** 100gm | 500gm | 1kg
